Residence Hall Electronic Guidelines

Ozark Adventist Academy provides sufficient computer hardware, software, and Internet access for every student to be successful in our academic program. At the same time, we endeavor to balance this access with protection from inappropriate images and other content incongruent with the mission and philosophy of Ozark Adventist Academy. In attempting to strike the proper balance of access and limitations for our students, it is our goal to help each one learn to manage the use of technology in a way that will serve them well for the rest of their lives. To that end, we provide each student with their own Chromebook during the entire school year and make additional desktop computer labs available in the ad building, the library, and each dorm.

As part of our ongoing work to help students develop a healthy relationship with technology the following are our updated electronics guidelines for students attending Ozark Adventist Academy:

- *Beginning this year, students will no longer be allowed to bring their own personal computers, laptops, or tablets on campus.*

- The only personal electronic devices a student is permitted to bring to school is one personal mobile phone and one electronic wearable.
 - Each device brought on campus must be clearly identified on an electronic policy agreement form completed by students and signed by their parents at registration. Required information includes any passwords or PINs needed to unlock and access any and all information stored on the device. In addition, any changes to passwords or PINs throughout the year, must be immediately communicated to the dean.
 - All student devices brought to campus are subject to search by academy staff with or without cause.
 - The school is not responsible for lost or stolen electronics.
 - **Please note the following guidelines that apply to your students' daily access to their school-provided Chromebook as well as their own personal electronic devices (mobile phone and wearable)**
-

- All devices are to be turned into the dean before lights out each night.
- On Friday night, all devices are to be turned in 30 minutes before vespers. Students are given access to their personal devices again after vespers until lights out.
- Use of all devices is prohibited during chapel, vespers, and Sabbath services.
- Personal devices are allowed in the classroom only at the express direction of the teacher.
